Dear Sir,

TESTIMONIAL

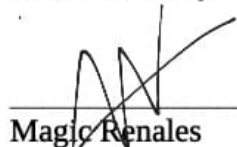

RE: Installation of Carpark Accessories for Completed Project @ Hill House, Institutional Hill

We were operating on an incredibly tight schedule for our latest project, and I was concerned about getting the installations completed in time. Nexxis Systems Pte Ltd exceeded all expectations by delivering and installing the rubber column guards and wheelstoppers well ahead of our deadline.

Their team clearly understands the local code/ regulations particularly in LTA vehicular parking, ensuring everything was compliant without us having to double-check the specs. Truly a seamless, stress-free experience.

I highly recommend these for any facility looking to meet safety standards quickly. The rubber wheelstoppers are lightweight enough for a one-person installation but stay rock-solid once anchored. The column guards wrap easily around our supports and provide immediate peace of mind.

Yours Sincerely,
