We would like to thank your office for the assistance you have rendered from start to finish of the above project.

We appreciate the prompt service, preparation of drawings and planning of work especially the last-minute arrangement to deploy the manpower. It was clear that you have understood the nature of construction, changes on site and expediting the works and installation. The Supervisor was aware of the sequence, schedule and latest drawings.

Site constraints have been communicated and explained well thus clearly shows the company's extensive experience in this trade. Advise were given and solutions were specified too.

Thank you once again and we will see you again on the next phase of this project.

Sincerely,

Heizer Carino
